# South Africa Birds (A Pocket Naturalist Guide)

## Synopsis

One of the world's top birding hotspots, South Africa's diverse habitats harbor more than 950 species. This beautifully illustrated guide covers over 140 familiar and unique species found in South Africa, Lesotho, Swaziland, Namibia, Botswana, Zimbabwe, and southern Mozambique and includes a map of birding hotspots. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by novices and experts alike.

## Customer Reviews

This is a twelve page laminated pocket pamphlet of the most common birds in South Africa.

Obviously SA is a huge area, but these are suppose to be the ones you are most likely to see. The last panel delineates the vegetarian zones and lists the major parks/reserves. The map covers SA, Namibia, Botswana, Zimbabwe, Swaziland, Lesotho, and Mozambique.If you are a serious bird watcher this is obviously not going to do it for you, but I like these types of bird pamphlets because they are light weight, easy to carry and it helps me memorize the most common birds of an area. I always carry a more complete guide with me, but these little guides are fun to zero in on birds that are common.

what a great pocket guide! great color images to help identify the birds in South Africa! fits into my

camera bag with no weight to it! Glad i bought it and will vie on my next trip to Kruger National Park!
