# Nevada Birds: A Folding Pocket Guide To Familiar Species (Pocket Naturalist Guide Series)

## Synopsis

Most of the Silver State is situated in the Great Basin, an arid plateau broken up by many short mountain ranges running from north to south. Nevada is the permanent or migratory home of 488 species of birds, including the state bird &#150; the beautiful mountain bluebird. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

## Book Information

## Customer Reviews

Boom!! just saw a bird and identified a bird with this handy pamphlet!!Its that easy, Flip it open to the category of bird and its likely you will see it there?Not to buyers reading the description: -Read the description. It says Format: PamphletWhere are your expectations? silly.I do recommend to residents of Northern Nevada.

I love these field guides, makes identifying common birds easier.

It is helpful in identifying birds in the region; however, calling it a "book" is not accurate.

I bought this for my daughter-in-law and decided I need to get one for myself. It's so easy to use.

Love having this since I am new to Nevada. Folds easily and coated with a plastic cover.
