Customer Reviews

Once again the darling, but mischievious Little Critter takes a trip and discovers something new and interesting. This little book finds him visiting the hospital and learning that it and the doctors aren't something to be afraid of. The perfect gift for a child who has worries about their own upcoming trip to the hospital, or; as in my grandson's case, has worries about the unknown place that his mother will be going to for surgery for a few days. This charming book tells all it needs to for children ages 2-6 from my perspective as a grandmother. Buy it, they'll love it! I get all my grandchildren Little Critter books from . It's fast and convenient shopping when they are all over the US and I'm living in FL.

I purchased this along with the "Zoe the Zebra" from the get well friends for my 2 year old sons friend who broke his foot. He loved them both! So perfect!

Every Mercer Mayer book is a hit. I try to buy all the new titles, and my grandkids love them! The art work & the stories are great for adults & children.

Putting this book away in case our "little critter" ever needs to take a trip to the hospital or a friend of his does so he can have all the answers!

I bought this book for my 3 year old daughter because she has to have surgery very soon. Even though the book is about a broken leg she still enjoys the story and is not scared of the thought that she'll have to go to the hospital soon. Very nice children book!
