Customer Reviews

The Orcs return to 8th edition with a fury in this highly detailed, fully illustrated army book. The new rules for animosity make this frustrating sequence of game play more tolerable. Other additions make for a much more playable version of the greenies and will offer you games that are far more competitive.

Now obsolete, but a good source for background and ideas for painting the models.

Finally received the book I ordered for my grandsons birthday present. It took almost one month to get it. When I contacted the seller they said that it had been shipped earlier and that I should have received it. They sent out another book and it arrived in one day past when they said I should have received it. The book was in excellent condition and my grandson is enjoying it very much!!!
